FOCUS

- Programming
- Artificial Intelligence
- Robotics
- Historical Films
- Anime

SKILLS

- Python (Pandas, Numpy, Matplotlib, Scikit-learn)
- Java / C / C++ / SQL
- Web Scraping
- HTML, CSS, JS, React.js

LANGUAGES

Arabic	Native
English	Fluent
English	Fluent

About Me

Data Analyst & Artificial Intelligence Developer, passionate about data analysis, machine learning and software development. With strong programming skills, I gained hands-on experience through academic and personal projects. Motivated and rigorous, I want to use my technical skills and analytical mind to design innovative, high-impact, data-driven solutions.

Education

- **High School Degree in Physics** 2021 – 2022
Moulay Youssef High School - Oulad Berhil, Morocco
- **DEUP (Associate's Degree) in Computer Engineering** 2022 - 2024
Polydisciplinary Faculty - Taroudant, Morocco
- **Bachelor's Degree in Data Analysis & AI Excellence** 2024 - 2026
Faculty of Sciences - Agadir, Morocco

Projects

- **Handwritten Digit Recognition in C (MNIST)**
Description: Complete C implementation of a neural network for loading, processing, and recognizing handwritten digits of 28x28 images.
Results: Model capable of accurately predicting on never-before-seen images.
- **Breast Cancer Diagnosis Classification**
Description: Development and comparison of several classification models (Logistic Regression, KNN and Decision Tree) to predict whether a tumor is benign or malignant from medical data.
Results: Evaluate model performance, select the best model, and export models as well as pre-processing pipelines with Joblib for production use.
